Are you [REDACTED]?

Even before the pandemic, [REDACTED] % of Americans were only one missed paycheck away from poverty ([REDACTED]). Many Americans live month-to-month with little or no savings, and we don't believe the worst part of this economic downturn has happened yet.

Our school systems fail to teach about money: budgeting, investing, saving, etc. Our masterclass is designed to help you improve your current financial health and set yourself up for further success and long-term gains, even in this uncertain economy.
